

## MIDI Stream Controller (MSC-10) upgrade instructions

### About

Through this document, users can upgrade the MIDI Stream Controller (MSC-10) by themselves. When DOREMiDi has new firmware, it will be announced on the official website. Follow the official latest news: <https://www.doremidi.cn/h-pd-92.html>

**Upgrade system requirements:** Windows 7 or newer version of Windows system or Mac OS.

Windows: [DOREMiDi Upgrade tool for Windows.zip](#)

MacOS: [DOREMiDi Upgrade tool for MacOS.dmg](#)

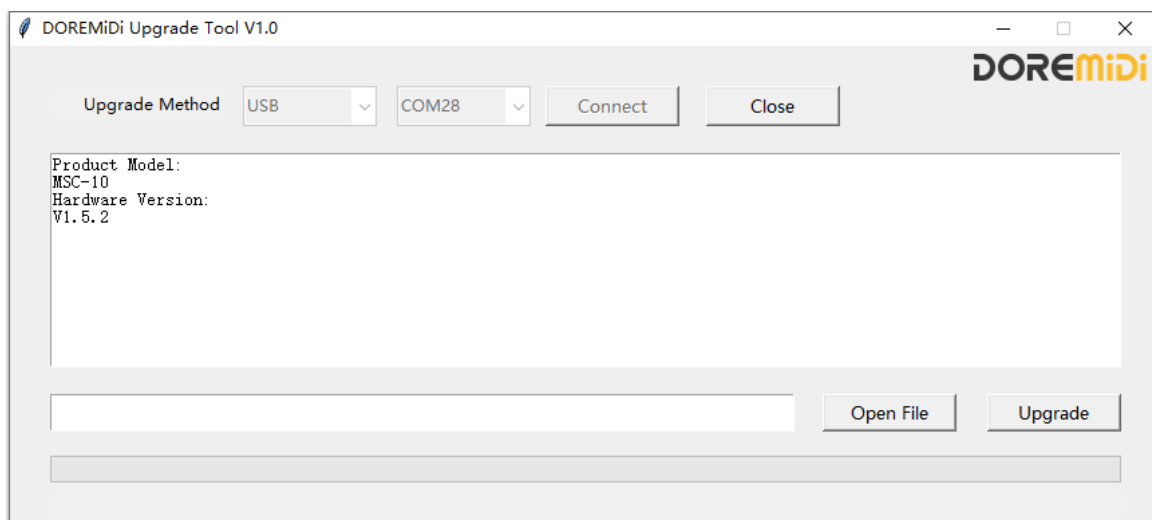

(Note: If the link cannot be downloaded, please go to the official website to download the software. [www.doremidi.cn](http://www.doremidi.cn))

### Step 1: Enter the upgrade mode

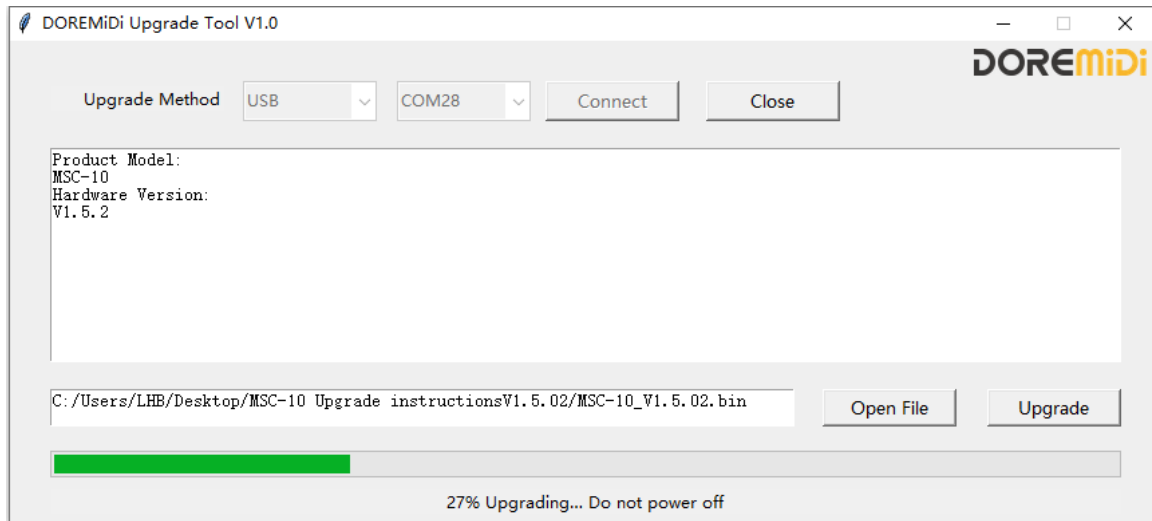

- Press and hold the hidden button with the sharp object.
- Then, connect the MSC-10 to the computer.

**Step 2:** Open "DOREMiDi Upgrade Tool", select USB, select the COM port to MSC-10, and click "Connect".

**Step 3:** Click "Open File", select the upgraded firmware MSC-10\_Vxxx, click "Upgrade", and wait for the upgrade to be completed "Upgrade completed!".

## Q&A

**Q: How to determine the COM interface?**

A: After selecting the COM interface, please try to click "Connect". If it is not a DOREMiDi device, "time out" will be displayed.

**Q: After product enters the upgrade mode, the computer USB cannot recognize the device.**

A: This may be because the computer lacks a driver, please try to install the " Virtual COM Port Driver ". Link:
